

How to use the RSA workbook

This RSA workbook is an interactive PDF document which allows you to:

- complete the workbook using a computer or tablet
- save your progress and continue at a later time
- print the completed workbook.

You are still able to print the workbook and complete it by hand if you prefer.

This workbook has been designed to be completed using the free Adobe Acrobat Reader software.

You can [download this free software online](#) (you do not have to register an Adobe account) or search for the free 'Adobe Acrobat Reader' through Google Play or the App Store.

The interactivity in this workbook may not function as intended if you use any other software.
